2D shape hunt in campus (Duration: 1 week) Individual work

- Students are expected to find a 2D shape in campus. It can either be designed or non-designed objects.
- You take a picture of that shape within its surrounding.
- Print it out with dimensions of 4x4 cm. Paste it on your sheet (A3).
- Draw your initial shape from the picture.
- Define only one rule to that shape. Use boolean operations.
- Using only that rule, create **30** derivations.

Medium: You can either use pencil-ruler or computer software. Both are welcome.

Due date 28 Feb. by 9:00.

Example.
